

FOR IMMEDIATE RELEASE

Stephen Zwick Joins RipBang Studios as Principal

As Director of Architecture and Interiors, Zwick will insure the quality of design and documentation across all projects.

Los Angeles, February 9, 2009 about 3 o'clock - RipBang Studios announced today the addition to our team of respected architect, Stephen Zwick, as Principal in Charge of Architecture and Interiors. An expert in restaurant and live venue design, Zwick is well known for bringing a high level design to places unaccustomed to such attention. His award winning work dramatically increases RipBang's ability deliver exceptional service and a high quality product to both existing and new clients.

An architect and interior designer with both an artistic upbringing and a scientific background, Zwick has over the course of his 23 year career created spaces that are colorful, functional and designed to the most minor detail. Zwick has specialized in designing the places where people gather like movies theaters, restaurants, clubs and live music venues for both local and national clients. In all of his designs, he has seamlessly integrated the architecture and interior design with the more technical functional needs of each respective client's operations. Such seamless integration is the common theme pervasive in all of Zwick's work.

Prior to moving to California and joining RipBang, Stephen was the owner and president of Ztecture PC based in Philadelphia, PA. While running this company, he designed and oversaw the construction of numerous food service tenant locations in airports up and down the East Coast including Logan, JFK, LaGuardia, Philadelphia, Reagan and Dulles for several major clients including OTG Management and the Compass Groups. Stephen's designs for locations like the Jet Rock Bar's & Grills, Cibo Bistro & Wine Bars, and Deep Blue Sushi have redefined travelers' expectations as noted in the New York Times and USA Today. He has also provided food service design for Sodexho and live venue design for Live Nation..

Stephen is a NCARB certified architect registered in California, New York, New Jersey, Pennsylvania, Massachusetts, Maryland, Virginia and South Carolina.

ABOUT RIPBANG

RipBang Studios specializes in creating fun. We have built a reputation for innovative design solutions that add visual impact to commercial entertainment destinations through the integration of Graphics, Sculpture, and Architecture. The result is a cost effective approach to creating destinations that are noticed and experiences that are remembered.

RipBang Studios has been commissioned to create and implement unique graphics programs, sponsorship environments, stores, restaurants, and brands for clients including The Orlando Magic, The Minnesota Twins, The Phoenix Suns, Scion, Universal Studios, Walt Disney Imagineering, The Rock and Roll Hall of Fame and many others.

RipBang Studios' core of experienced design professionals are drawn from the fields of Architecture, Interiors, Graphic Design, Illustration, Project Management, Marketing and Business. Our services include Strategic Planning, Branding, Signage and Graphics, Architecture and Interior Design, and Event Graphics.
